

Special Topics

Your Mission:

- To provide a 30 minute presentation to the class on features of GIS software that are of special interest to you
- The presentation should include:
 - A brief description of what the tools can help you do
 - How the tools work
 - A brief example of what the tools can do
 - An example of using the tools in an actual analysis
 - Any special information or “tips”

Suggested Topics (feel free to add your own)
